Maion Mathieu

IT engineer

Computer engineer in apprenticeship, with a passion for cutting-edge technologies and a strong practical experience. Currently, I am engaged in a learning program that allows me to combine my theoretical knowledge with concrete projects within a company. With my skills in software development, project management, and problem-solving, I am ready to tackle industry challenges and actively contribute to technological innovation.

Work Experiences

2022 - 20??
PREDICT l 19 Avenue de la Forêt de Haye, Vandœuvre-lès-Nancy
Work-study developer

As an apprentice developer, my central role is to utilize my skills in HTML, CSS, JS, and C# to contribute to the development of innovative technological solutions. This ongoing professional experience allows me to apply my theoretical knowledge in a practical environment, while enhancing my teamwork and problem-solving abilities. I am motivated to continue refining my skills and evolving in this dynamic field, acquiring new competencies and staying abreast of the latest technological advancements.

Summer 2022
Agricultural Collective of Lorraine l Silo Courbesseaux
Site assistant

As a seasonal employee for the Agricultural Collective of Lorraine, I worked in a team to receive, assess, and sort various types of grains provided by local farmers. My role involved conducting quality tests, evaluating compliance with standards, and sorting grains based on their characteristics. This experience allowed me to develop skills in teamwork, communication, and organization.

Spring 2022
Dalkia | 6 Rue des Trezelots, Pulnoy
Intern developer

As an intern at Dalkia, I had the opportunity to work independently on a crucial software used by numerous individuals within the company. My primary role was to develop forms automation solutions. This experience allowed me to apply my technical skills and demonstrate my ability to solve problems independently. I showcased my initiative-taking capabilities and provided effective solutions, while also contributing to the optimization of internal processes.
